

What's New For You

New Sailor Private Homepage Personalizes MNP

Release 30.9

September 2026

BLUF: Sailors logging in to MyNavy Portal (MNP) will now land on the all-new MNP Sailor Private Homepage. The homepage will allow one-click access to personalized career information and tools.

Advantages of the New MNP Sailor Private Homepage

MNP is getting personal! Upon login, the new Sailor Private Homepage will give Sailors immediate access to important information, updates, links, dates, career management information, and self-service options. This puts the most used HR tools front and center, saving Sailors time and effort. Access the Personal Homepage by logging on to MNP at mn3p.navy.mil.

Navigating the MNP Sailor Private Homepage

As seen below, Sailors can view their profile card, important dates and relevant links, submit service requests, and access MyCareer for a more comprehensive view of their readiness status. At the top of the screen, Sailors can view fleet and portal updates, NAVADMINs, and new capabilities.

Below their personal profile, Sailors will find a series of quick actions for commonly used capabilities within MNP. Sailors can also view three personal readiness status cards with links to additional data displays
